Bluetooth Boombox Buddy System

Owner's Guide

Model SP-SK869TW

Introduction

Thank you for your purchase of the SHARKK Bluetooth Boombox Buddy System. Please take the time to read this manual carefully before you begin using your new items.

The Boombox Buddy System is more than just two arbitrarily linked speakers. Rather it is a true wireless, surround sound experience with a transportive result that is truly greater then the mere sum of it's parts. Featuring two Bluetooth 4.0 powered wireless boomboxes, the Boombox Buddy System is packed with advanced features and equipped with the very latest in wireless technology. And with each speaker equipped with a high-capacity 4400mAh battery, you can rock out for up to 18 hours on a single charge!

Introduction

In addition to the Boombox Buddy System, the SHARKK Lifestyle Brand is pleased to be able to offer a wide variety of consumer accessories across many different product categories. Keyboards, mobile device cases, speakers and smartphones are but a few of the items that make up our extensive online catalog and we welcome you to visit us and browse our handpicked selection of the latest consumer accessories at sharkk.com.

Here at SHARKK, the quality of our products and the satisfaction of our customers are the two greatest passions of our enterprise, as we endeavor to bring you top quality items at competitive prices.

Getting Started

Power Indicator (1)

- Flashing Blue: device is turned on and active.
- Solid Red: device is charging (will go dark when fully charged).
- Solid Green: device is in AUX mode.
- Flashing Blue and Red: indicates active Bluetooth pairing.

Power Button (2)

- Press and hold to turn device on/off. You will hear a beep-like sound when powering on and the power indicator will turn blue. The light behind this button will turn green while speaker is in AUX mode.

Headphone Jack (3)

- Press and hold M button to switch between headphone/AUX mode.

AUX in port (4)

- Here you can connect your speaker to external media devices.

Micro USB Port (5)

- This port is for charging only and cannot be used for external media devices.

M(ode) Button (6)

- Use this button to toggle between Bluetooth/AUX modes.
- Press & hold to synchronize sound when speakers are paired with AUX cords.
- Press this button twice on each speaker to pair them together.

Note: *Always pair speaker "A" with your media-device before pairing the speakers together.*

Prev/Next (7)

Use this button to navigate between tracks when Bluetooth device is connected.

Thermal Sensor (8)

- Detects the heat of a human hand and will automatically activate the devices frosted LED button-backlighting.

Play/Pause (9)

- While in Bluetooth mode, press and hold to initiate Bluetooth pairing, then continue to use normally for playing and pausing.

V-/V+ (10)

- Adjusts volume. While in Bluetooth mode, a beeping sound will alert you when you have reached maximum volume.

Phone Button (11)

- When connected via Bluetooth, press and hold to activate Siri or S-Voice.

- Press twice to redial the last number you called.
- Incoming Call: press once to answer, press and hold to reject/end call.
- Only speaker "A" (the main speaker) has access to phone-related functionality.

NFC Area (12)

- Hold your device over this area to use NFC for Bluetooth connection.

Microphone (13)

- For best results, keep within 3 feet of the mic while speaking.

To Charge the Speakers

Insert the power cord into the Micro-USB port of the device. Charging begins automatically even if the device is powered off.

Getting Started

Bluetooth

1. Power on speaker “A” and hold your phone or other device within 3 feet of the speaker, press and hold the Play/Pause button for 3 seconds, the system will then enter pairing mode and the indicator light should be flashing blue and red.
2. Pairing mode will automatically be canceled (signaled by a beep) after 3 minutes. To re-enter pairing mode, simply begin again at step #1.
3. Ensure Bluetooth is enabled on the device you wish to pair with the speaker.
4. The speaker will appear as “SHARKK” when scanning for available devices.
5. When selecting “SHARKK” from the list, if prompted for a Password (sometimes called a “Passkey”, “PIN Number”), enter “0000”.

6. The speaker will record this device as the last device paired.

7. Once you have speaker “A” successfully paired with your device, follow these instructions to pair the two speakers together.

- Power on speaker “B” and position it next to (i.e. within 5 feet of) speaker “A”.
- Press the “M” button twice on speaker “A” and then twice on speaker “B”. The power indicator on both speakers should begin flashing blue and red alternately as they attempt to pair (this may take up to 10 seconds).
- A tone will sound when the speakers have successfully paired.
- It is important that speaker “A” always be paired first as alternating between the two could lead to unintended results.
- Press both the “Prev” and “Next” buttons together to delete pairing records. This procedure must be done on both speakers to erase pairing history.

8. When in Bluetooth mode you can switch to “AUX” by pressing the M button when your Bluetooth device is paused. While in AUX mode, the green circular light behind the power button will remain on. However, as long as the Bluetooth connection is not terminated, it will remain the prime connection and will override the “AUX” connection when it is played and then if paused again, the AUX connection will re-establish after a three second delay.

9. Incoming calls will override music and other media with an “incoming call” voice alert, simply press the Phone button to answer or press and hold to reject/end the call. Press the Phone button to answer a second incoming call.

10. Press and hold the Phone button for three seconds to activate Siri/S-Voice on speaker “A”.

Range

Be sure to keep Speaker A within 30 feet (10 meters) of both Speaker B and the connected media device at all times for optimal buddy-system performance.

NFC

- Begin by turning on the NFC function of the device you wish to connect to your speaker.
- Touch the device to the NFC area of your speaker (located on the top of the speaker next to the MIC port and power indicator), and the speaker should connect automatically.

AUX

- Press the M button to switch to AUX mode. While in AUX mode, the green circular light behind the power button will remain on.
- Two or more speakers can be connected via the supplied 3.5mm audio cable, to accomplish this simply insert one end of a second audio cable into the headphone port on speaker “A” and the other end of that cable in to the AUX of speaker “B”.
- Inserting the cable into the headphone port of speaker “A” will disable the speakers (as the headphone connection is now active), to reactivate the speakers on speaker “A” hold down the M button on speaker “A” for a duration of 5 seconds.

Features

1. Bluetooth Version 4.0.
2. Increased Bluetooth transmission rate and higher audio fidelity with decreased power consumption.
3. Supports: NFC, Siri and S-Voice.
4. Battery status shows on iPhone/ iPod / iPad.
5. Dual 10W loudspeakers produce high quality stereo sound.
6. Buddy pairing system allows for true wireless stereo left-right sound.
7. Advanced Lithium Battery allows for up to 18 hours playing time!
8. Thermal heat sensor automatically activates frosted LED backlighting for the button on the speaker.
9. Built-in phone functions allows you to answer or reject incoming calls as well as redial the last number you called.

Product Overview

Specifications

1. Operation Voltage: 3.7 V
2. Charging Voltage: 5V
3. Output Power: 5Watts * 2 per unit
4. Speaker Spec.: 50mm 2 Ohms 5W
5. Frequency Response: 60Hz ~ 20Khz
6. Lithium Battery Capacity: 4400mA per unit
7. THD < 0.5%
8. SNR > 90dB
9. Dimensions: 60mm * 70mm * 190mm

Proper Use

1. Please charge your new speakers for at least two hours before first use.
2. To prevent damage and risk of electrical shock, do not expose this device to dust, vibration, rain, water or liquids of any kind.
3. Do not place device in close proximity to open flames or extreme heat sources. Always place your device on level, flat and stable surfaces.
4. Avoid placing items on top of the speakers.
5. Do not use excessive force when pressing buttons or handling your speakers.
6. To clean your speakers, use only a dry, soft cloth or minimally damp cloth without any corrosive solvent or cleaning agent.

Appendix

Safety

To prevent fires, shock or injury, please do not disassemble or replace any parts of these speakers. In the event that your device may be damaged or in need of repair, please contact a professional maintenance or qualified service center for assistance. We are not responsible for any personal injury or property damage caused by improper use of this product.

Please do not allow the use of these speakers by small children without proper adult supervision.

Warranty

Your new SHARKK BBoombox Buddy System is covered by a Limited Manufacturer's Warranty. Details of the warranty are as follows: for a period of one (1) year from the date of retail purchase, SHARKK warrants that this product is free of any defects in manufacturing, materials and workmanship.

During the warranty period, we shall, at our sole discretion, repair or replace any defective parts within a reasonable period of time and free of charge.

Appendix

FCC Compliant

These devices comply with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) These devices may not cause harmful interference, and (2) These devices must accept any interference received, including interference that may cause undesired operation.

Support

As with all SHARKK products, the Boombox Buddy System comes with our quality assurance and satisfaction guarantee. If you should experience any technical or performance issues with your device, or if you simply have a question or inquiry, we invite you to contact our customer service department at support@sharkk.com, and we will do everything in our power to help resolve the issue.
